

IP over InfiniBand WG

55th IETF, Atlanta

November 18, 2002

Administrative items

- Blue sheets
- Minute taker
- Agenda bashing

Agenda

Charter update and WG document status	5 mins	Jerry Chu
IPoIB MIBs status	30 mins	Sean Harnedy
IPoIB connected mode	30 mins	Vivek Kashyap
Wrap up	10 mins	Jerry Chu

Charter update

- IP over IB connected mode was added and approved by IESG
- Care must be taken to avoid interference between reliability algorithms at different layers
- See the updated WG web page

Drafts under IESG review

- Link and multicast draft
 - draft-ietf-ipoib-link-multicast-02.txt
- Encapsulation draft
 - draft-ietf-ipoib-ip-over-infiniband-01.txt
- DHCP over IB draft
 - draft-ietf-ipoib-dhcp-over-infiniband-01.txt
- Need to address AD's comments

Next steps

- IBA 1.1 specs were released last week
- Verify current drafts against 1.1 specs
- Move MIBs drafts to last call
