

UDLR WG - 55th IETF

Security Implication draft

Emmanuel Duros (eduros@udcast.com)

19.11.2002

Security implication draft

- Submitted in november 2001
 - draft-ietf-udlr-security-00.txt
- Discussed in IETF meeting in Salt Lake City (Dec 2001)
- Now obsolete
- No comments so far on the mailing list
- Will submit it again
- May add some more content since we have been working on an authentication mechanism for UDLR
- Last chance for comments !
