

AdvComm conclusions

IETF Chair

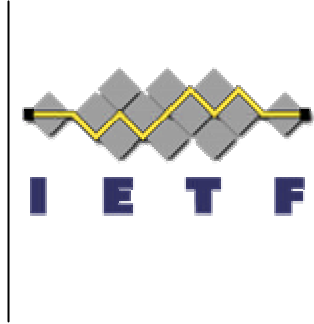

IAB Chair

AdvComm extreme summary

- The IETF legal existence is irregular
 - This is not a feature
- Lots of work by "fellow travellers"
 - Work being done is good
 - Normalizing relationships makes things easier for all
- This is not a trivial problem to get right
 - Preserve features of current system
 - Make it easier to get work done

The Plan

- The IETF is in need of clearer arrangements
 - Formal organization a part of the answer
 - Must remain open and accountable to the IETF community
- Chairs of IAB and IETF, with support, run the process
 - Proposals made to IESG and IAB
 - Decisions made by IESG and IAB
 - Ratified at plenary when appropriate
 - IETF Last Call process used when appropriate (documents)
 - Small decisions will "just be made"
