

# Requirements for Transport of Video Control Commands

draft-basso-avt-videoconreq-00.txt

*IETF 59 – Seoul*

# Updates

- **Text Clarifications**
  - Section 3: Video Coding overview
    - Clarified terminology relative to slices, Group of Blocks and reference frames
  - Section 6.3 Avoid Duplicating Existing Protocols
    - Clarified the reference to IETF protocols only
  - Section: 7.8 Interoperability with other protocols
    - Clarified the text relative to H.245
- **Trimming of command list**
  - Focus on IETF protocols needs
  - Harmonization with ITU H.241 in progress
- **Trimming of the requirement list**
  - Requirements will be finalized once the command list is stable
- -01 version of the draft available end of March
