

NEMO Terminology and Requirements Updates 59th IETF Seoul

Thierry Ernst - WIDE at Keio University

NEMO Terminology: draft -nemo-terminology-01

- New Terms:
 - NEMO: 'NETwork MObility'
 - A NEMO: 'a NETwork which is MObile'
 - NEMO-link
 - NEMO-enabled MR
 - Terms from the usage draft (section 7)
- New Abbreviations:
 - I-face
 - E-face
 - NEMO-prefix (instead of MNP)

NEMO Terminology: draft -nemo-terminology-01

- New Information
 - NEMO terms defined in Mobility Terminology: listed
- Depreciated terms (will be kept here until document becomes RFC)
 - MONET (use NEMO)
 - TLMR (use root-MR)
- Details:
 - LFN / LMN / VMN: have an address taken from the NEMO-prefix

NEMO Terminology: draft -nemo-terminology-01

- Proposition: say in NEMO Basic Support that:
 - only MRs may be 'NEMO-enabled'
 - LFNs are not NEMO-enabled nor MIPv6-enabled
 - VMN / LMN may be NEMO-enabled if acting as MRs
 - VMN / LMN may be MIPv6-enabled

NEMO Terminology: draft -nemo-terminology-01

- Terms from the usage draft (section 7)
 - Home Link
 - Home Network
 - Home Address
 - MRHA Tunnel
 - Mobile Aggregated Prefix
 - Aggregated Home Network
 - Extended Home Network
 - Virtual Home Network
- Are those terms too narrowed for the terminology document ?

NEMO Terminology: draft -nemo-terminology-01

- Any other Issue ?
 - Last Call ?

NEMO Requirements: draft -nemo-requirements-02

- NEMO support design goals may be enhanced (multihoming, nested, ...)
- NEMO Support One-Liner Requirements
 - Is this still useful ?
 - In this document, or in NEMO Basic Support ?
-
- Any other issue ?
 - Last Call ?
