

KITTEN PRF and Naming Status

nicolas.williams@sun.com

PRF Status

- Recall: two I-Ds, one for GSS_Pseudo_random(), one for the Kerberos V mechanism PRF
 - draft-ietf-kitten-gssapi-prf
 - draft-ietf-kitten-krb5-gssapi-prf
- Both were WG Last Call
 - The abstract API I-D **failed** WGLC
 - Issues have been addressed, new version (-05) has been submitted and published, WGLC will begin promptly
 - The krb5 mech PRF I-D **passed** WGLC

Naming I-Ds Status

- Recall: Two I-Ds, one on requirements, one on actual abstract APIs and language bindings
 - Draft-ietf-kitten-gss-naming
 - draft-ietf-kitten-gssapi-naming-exts
- WG Last Call will start within a week for the requirements I-D
- The abstract APIs I-D **needs review**
