Summary

- draft-dupont-mipv6-rrcookie-01.txt
- Some routing optimization protection mechanisms have no built-in care-of address test
- State cookie idea used in SCTP and IKE
- Features:
 - care-of address test at the initiative of the CN
 - return routability check
 - no state creation by the CN for DOS resilience

Actions

- Referred by to become standard track documents
- Not empty IANA considerations
- => publish it as experimental
