

IPFIX Export per SCTP Stream

IETF-77 March 23rd, 2010

<draft-ietf-ipfix-export-per-sctp-stream-06>

Paul Aitken, Andrew Johnson, Gerhard Muenz, Benoit Claise

History

- **In last October/November, there were some discussions on the mailing list.**
- **Consensus: move to Proposed Standard**
- **Posted version 5 and 6.**
- **Mid February: “[IPFIX] Document Action: 'IPFIX Export per SCTP Stream' to Informational RFC**
- **However, the consensus was Proposed Standard**
- **Did an IETF last call directly: “Last Call: draft-ietf-ipfix-export-per-sctp stream (IPFIX Export per SCTP Stream) to Proposed Standard”,**

Status

- **IESG evaluation:**

Received some feedback from Ben Campbell, confused as to how the collector determines the exporter supports this extension

DISCUSS comment from Russ Housley: basically the same as Ben Campbell

We have re-arranged the “The Collecting Process's Side” section

Waiting for Ben and Russ’ reviews
