

Simplified Multicast Forwarding (SMF) Status

Joe Macker
IETF 77, Anaheim, USA
March 2010

SMF Status

- -10 draft version now posted
- Minor edits throughout
- Other minor changes to realign better with normative reference
- Had previously announced a stall in the WGLC for EXPERIMENTAL submission consideration until NHDP had progressed to IESG review
- We should be able to proceed now with WGLC
