draft-george-ecrit-lamp-post

Brian Rosen

Add post number to PIDF-LO

- Adds two kinds of post numbers to civic address
  - Lamp post (used in China), unique number for each lamp post
  - Milepost (railroads, trails, roads) number indicating distance from benchmark along a "road"

- New CA type

Open Issue

- Two Separate Catypes
  - Do we want one, with some kind of registry for type
  - We observe that we won't have many and there is no shortage of CAtypes so easiest to just have more if we need them.
