Jay Navali

IETF-79, November 2010

Changes from 02->03

=> **First Change:**

Section 4.1 : D-bit setting clarification

Added the clarification in the draft that FA does not add the new extension when D-bit is set (collocated CoA registration) in the Registration Request.

Changes from 02->03

=> 2nd change:

Section 4.2 : HA behavior clarification

Added text to clarify the HA behavior when GRE tunneling is not supported.
