# ANCP Applicability to PON
## draft-ietf-ancp-pon-00.txt

Nabil Bitar, Verizon

Sanjay Wadhwa, Alcatel-Lucent

Status and Next Steps

❑ Current draft – draft-ietf-ancp-pon-00

❑ Targeting an updated draft incorporating contributions from Hongyu Li (Huawei) and Thomas Haag (DT) by May 6 2011

  ❑ Separate out ONU definition. In current draft, there is one definition termed ONT/ONU
  ❑ Separate diagrams and supporting text for OMCI vs. ANCP between ONT and OLT. Current draft has a section on ANCP versus OMCI between the OLT and ONT. Thus, these will be merged.
    ❑ ANCP/OMCI interworking could be the subject of another ID
  ❑ Diagram for topology discovery – add to existing section
  ❑ New section on access loop configuration
  ❑ Hongyu Li and Thomas Haag will be added as co-authors on the draft

❑ Expect to go for Working Group last call after IETF 81 (Quebec)?

Status and Next Steps

❑ ANCP protocol extensions for PON support in a separate new draft. Current volunteers

  ❑ Sanjay Wadhwa
  ❑ Hongyu Li
  ❑ Nabil Bitar
  ❑ Others?
