

Support Shared Mesh Protection in MPLS-TP

July 25, 2011

Ping Pan, Biao Lu, Rajan Rao (Infinera)
Andy Malis (Verizon)
Luyuan Fang (Cisco)
Sam Aldrin (Huawei)
Mohana Singamsetty (Tellabs)

Operation & Protocol (Review)

Changes from IETF 80 & Next Step

- Changes
 - Made changes from the comment
 - Optimized the message format
 - Presented the framework in ITU SG15 Interim meeting in May
 - This is in-line with the on-going Shared Mesh Protection work in SG15
 - We will extend the support for circuit (OTN) switches
- Next Step
 - Ready for WG document
