

PPSP Survey

Presenter: Gu Yingjie

What's updated in this version

- Editorial revision
- Structure adjustment
- Reference reorganization
- No additional PPSP examples are introduced, no technic revision.

Overview

- Three classifications: Mesh-based, Tree-based and Hybrid
- Protocol design introduction to each P2P Streaming system
- QoS mechanism of each P2P Streaming system
- A common P2P Streaming process model

What we look forward to

- Hope people can review the draft and comment
 - Very few, if not none, comments are given to Survey draft.
 - The authors think that the Survey draft is ready for WGLC.
- Hope we can start WGLC.
