

# draft-ietf-avt-mwpp-midi-rtp-02

## ❑ Document changes reflect IETF-52 questions.

- ▶ What is MPEG and what is not?
  - mpeg4-generic support remains.
  - Former target: “MPEG subset” of MIDI.
  - Current target: entire MIDI command set.
- ▶ What is normative and what is not?
  - Most send/receive algorithms removed.
  - Bitfields and checkpoint policy remain.

## ❑ Work items.

- ▶ Resiliency for the full MIDI command set.
- ▶ Evaluate efficiency for dense MIDI streams.
