

DNS Discovery Discussion

Margaret Wasserman
mrw@windriver.com

Thoughts on Current Situation

- Long term goal of robust auto-configuration
 - See Steve's excellent e-mail on the subject
 - “Interesting” problem, not in scope for IPv6
- Short term need for way to get DNS resolver addresses
 - Does this need to be standardized?
 - If so, how can we get there?

What are our options?

- Continue with existing proposal?
 - Submit for PS or Experimental?
- Accept DHCP as solution?
- Work on requirements?
 - Bob and Ralph have work underway
 - How does this lead to a solution?
- Consider a new approach to this problem?
