Core Privacy Policies
draft-morris-geopriv-core-00.txt

- Entirely External
  - only a reference to external privacy rules
- Bare Bones Internal
  - at most one or two rules (such as retention duration)
- Limited Internal
  - a limited set of 4 to 7 rules
- Full Internal
  - a full, robust set of privacy rules.

"Limited Internal" Proposal

A. Limitation on length of data retention

B. Limitation on any retransmission or further disclosure

C. Permission to disclose only to specified individual/entity

D. Permission to disclose only to someone presenting a specified key or a special type of credential

E. Requirement that location granularity/precision of location information be reduced

F. Requirement that external privacy rules be followed

G. Instruction that location be transmitted to specified external URI with specified instruction

Back of Napkin Modification

- From Location Sighter to Location Server
  - only A, B, F (human readable rules in 2 forms)
- From Location Server to Location Server
  - A, B, F plus C-E (machine readable rules)
- From Location Server to Ultimate Location Recipient
  - only A, B, F (human readable rules in 2 forms)
- G is a requirement but not a "privacy rule"
