# The IETF Mission

- Is the IETF primarily a standards organization?
  - We believe YES – but we have other activities that support that function
- Is the IETF making standards "for the Internet" or "for what's on the Internet"?
  - This is a question that is hard to answer
IETF Procedure Questions

- Is functional differentiation a reasonable theory?
- Are the two selected areas the right ones to tackle first?
  - WG Chair role and procedures
  - Document review – early and often

IETF WG Chair questions

- Does the community think we got it right(er)?
  - Will it make it easier to get the job done?
- Is the WG chair's role right(er)?
  - Do they need more tools or powers?
  - Do they need more support?
- Who wants a job as WG chair? ☺

Document Review Questions

This illustrates the state of the topic – more work needed!

- Do we need more review? YES!
- Early review – what is most needed?
  - Subject matter experts
  - Cross-area review
- Pre-IESG review – what is most needed?
  - Lots of people doing review
  - People who will catch blocking issues
- How should reviewers be selected?
- How should reviewers be trained?
- Who should pick review criteria?
- Who should decide the weight to give to reviews?

What have we missed?
