

v6ops

v6ops working group

IETF-58 Minneapolis

Monday & Wednesday 10 & 12 Nov 2003

Co-chairs:

Pekka Savola <pekkas@netcore.fi>

Jonne Soininen <jonne.soininen@nokia.com>

Bob Fink <bob@thefinks.com>

v6ops wake-up call

wake-up call

- Perhaps it hasn't been clear..
 - Scenarios/analysis is blocking work
 - There will NOT be ANY protocol activity until we're done!
 - At least for the area of the analysis document in question
 - Operational etc. documents are a separate subject
 - Worried that we miss a market window etc.?
 - I worry about that as well!
 - But the ONLY thing we can DO is FINISH scenarios/analysis
 - They're not going to be finished sooner by waiting for someone else to finish them!

- Summary: we need YOU to finish the analysis!
 - Don't look at the guy sitting next to you, we mean you!

Agenda 2nd session

Agenda: Wednesday 12th Nov 1530-1730

- (NOTE: more verbose agenda on the web!)
- Unmanaged connectivity deployment model, 20 mins, C. Huitema
 - (status update from Monday + discussion)
- Transition mechanisms update, 10 mins, Erik Nordmark
 - draft-ietf-v6ops-mech-v2-01.txt
- Enterprise Scenarios discussion, 5 mins, Y. Pouffary, J. Bound
 - draft-ietf-v6ops-ent-scenarios-00.txt
- SIIT/NAT-PT Applicability Statement - 15 mins, Suresh Satapati
 - draft-satapati-v6ops-natpt-applicability-00.txt
- IPv6 Applications Transition - 15 mins, Myung-Ki Shin
 - draft-shin-v6ops-application-transition-02.txt
- IPv6 Renumbering Procedures, 20 mins, Fred Baker
 - draft-baker-ipv6-renumber-procedure-01.txt
- Forwarding Protocol 41 in NAT Boxes - 5-10 mins, Jordi Palet
 - draft-palet-v6ops-proto41-nat-03.txt
- IPv6 Firewalling Considerations, 10 mins, Pekka Savola
 - draft-savola-v6ops-firewalling-02.txt
- ~~Experiences with Dual Stack Service - 10-15 mins, Y. Shirasaki~~

Generic Transition Considerations

Generic transition considerations

- Request for discussing generic IPv6 issues

- DNS, application transition, security, etc.

- ▷ Progress being made already, for example...

- DNS

- draft-ietf-dnsop-ipv6-dns-issues-02.txt

- ▷ needs a lot more work, though

- draft-ietf-dnsop-ipv6-transport-guidelines-01.txt

- draft-morishita-dnsop-misbehavior-against-aaaa-00.txt

- ▷ the future is still uncertain?

- Applications

- draft-shin-v6ops-application-transition-02.txt

- ▷ considered for WG document today

- Security

- draft-savola-v6ops-security-overview-00.txt

- ▷ not updated, but if there is interest..?

- Something else?

- please bring it up!
