

Multicast Router Discovery

Jim Martin

Brian Haberman

MAGMA WG @ IETF60

Editorial Changes

- New IPR and copyright text
- Added RFC 2119 keywords
- Filled in missing references

Technical Clarifications (1)

- Encoding of Query Interval field
- No new adverts when Query Interval or Robustness Variable change
- Cleaned up Security Considerations
- ICMPv6 code comes from Informational range
- Explicit mention of IGMP and MLD in abstract

Technical Clarifications (2)

- Clarified text on discarding Advertisements
- Changed SOLICITATION INTERVAL → MAX SOLICITATION DELAY
- Cleanup text on parsing messages
- Any authentication mechanism between routers and hosts is out of scope

Conclusions

- Addresses all comments from Seoul and mailing list
- Ready for WG Last Call
