

# Group Management MIB

draft-ietf-magma-mgmd-mib-03.txt

Julian Chesterfield

IETF 60 – MAGMA WG

# Updates from –02

- Fixed typos and suggestions as previously outlined
- No significant content changes from -02
- Version 03 in ‘Last Call’
- Some feedback already received, new version release anticipated very soon.

# Outstanding Items

- Feedback regarding last call version received, changes to make:
  - Clarify router non-implementation of host tables
  - Clarify Cachestatus variables and implementation impact
  - Update overview
  - CacheAddressType not-accessible
  - InetAddress variables must be followed by InetAddressType
  - RFC 1902 compliancy, review access parameters for each table
  - Some additional typos
- Any other feedback please contact author
