

Secure Shell (secsh) Working Group

(PANA: in Jefferson East)

Secure Shell (secsh) Working Group

Agenda

- IV/agenda bashing/bluesheets 5 minutes
- WG/Draft status 5 minutes
- Core draft nits 15 minutes
 - Chris Lonvick
- filexfer draft 15 minutes
- padding 15 minutes

WG Status

- No meeting in a year
- New document editor
- New IETF IPR process docs
 - replace 2026 with 3667, 3668
- New Issues(tm)

New Issues(tm)

- Under discussion with an inactive author
- RFC3667 requires mention of trademarks
 - "All trademarks, trade names, service marks and other proprietary names used in the Contribution that are reasonably and personally known to the Contributor are clearly designated as such where reasonable."
- Vague about exact form of reference
- AD's asked IESG to rule
- IESG referred question to IPR working group

IPR WG

- ipr-wg@ietf.org
- <http://www.ietf.org/html.charters/ipr-charter.html>

Issue Tracking: Reminder

- Picked RT as run by Randy Bush/Rob Austein
- <https://rt.psg.com>
 - log in as "ietf", password "ietf" for anonymous access
 - ask WG chair for write access.
- Want more participation from document authors!

General Nits For All Drafts

- References split (normative/nonnormative)
- Security considerations section
 - Looks really lame if SEC area forgets this!
- IANA considerations section?
- ID NITS: <http://www.ietf.org/ID-nits.html>
- IPR (tm) references if made need to follow 2026
 - IETF does not make judgements on IPR claims
 - BAD: “there is a {patent,trademark}”
 - GOOD: “there may be IPR claims”

draft-ietf-secsh-dns

- In RFC editor queue, waiting for core drafts

Core Drafts Status

- Almost all IESG issues believed dealt with
- See Other Presentation

Misc Drafts

- draft-ietf-secsh-auth-kbdinteract
- draft-ietf-secsh-dh-group-exchange
- draft-ietf-secsh-newmodes
 - nits only; wg chair has been lame about followup

- draft-ietf-secsh-gsskeyex
 - waiting for someone to tell me it's done.

- draft-ietf-secsh-filexfer
 - Active discussion, call for comments

Anything else?
