

Registration of Enumservices for experimental, private or trial use

draft-ietf-enum-x-service-regs-00

Bernie Hoeneisen

IETF-70, Vancouver, BC, Canada

Changes since initial version

- Added dash issue
 - RFC3761 does not allow dashes in Type
- Introduced abbreviation “X-Enumservice” and used it throughout the document
 - > experimental, private or trial Enumservice
- Clarified section URI Schemes
- Expert Review process for X-Enumservices
 - Described the process
 - Included ASCII-arts

Open Issues

- Create additional IANA Registry?
 - Alternative:
Re-use Registry for ordinary Enumservice registrations?
- Require a first Security analysis?
- Need for "duration of registration"?
- Sync with RFC3761bis
 - Intended Usage:
"EXPERIMENTAL", "PRIVATE", and "TRIAL"
 - Alternative: just re-use "LIMITED USE"
 - Dash in 'X-' to allowed chars
- Finalize process for Expert Review
