

# Relay ID Suboption for DHCPv4

draft-stapp-dhc-relay-id-00.txt

Mark Stapp (mjs@cisco.com)

# Administratively-Assigned ID For a Relay

- Simple format:

```

0                               1                               2                               3
0 1 2 3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1
+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+--+
|SUBOPT_RELAYID |   length           |                               |
+--+--+--+--+--+--+--+--+--+--+--+          id (variable)          |
.
.
.
+-----+
    
```

- May be configured directly
  - ASCII string
  - Inventory code
- May be RFC 3315 DUID
  - Following example in RFC 4361

# Status

- Some discussion on the list; no significant issues (so far...)
- Accept as WG item?
