ALTO Deployment Considerations
draft-ietf-alto-deployments-02

IETF#81, Quebec, July 26, 2011

M. Stiemerling and S. Kiesel

martin.stiemerling@neclab.eu

Changes

- new section: Deployment Considerations by ISPs
- new section: Monitoring ALTO
- both provided by
  - Xianghui Sun, Lee Kai, and Richard Yang

Deployment Considerations by ISPs

- discusses several deployment scenarios
- and how ALTO network maps can be configured for each

Monitoring ALTO

- Discusses how to monitor if ALTO is effective or not

- Is there a relationship to the work of the IPPM working group at the IETF?

Next Steps

- Needs further input from
  - implementers
  - people who operate ALTO server or clients
- Needs review from the WG

Thank you
and
Time for your questions!
