IPPM WG

IETF 81

Note Well

Any submission to the IETF intended by the Contributor for publication as all or part of an IETF Internet-Draft or RFC and any statement made within the context of an IETF activity is considered an "IETF Contribution". Such statements include oral statements in IETF sessions, as well as written and electronic communications made at any time or place, which are addressed to:

•The IETF plenary session
•The IESG, or any member thereof on behalf of the IESG
•Any IETF mailing list, including the IETF list itself, any working group or design team list, or any other list functioning under IETF auspices
•Any IETF working group or portion thereof
•The IAB or any member thereof on behalf of the IAB
•The RFC Editor or the Internet-Drafts function

All IETF Contributions are subject to the rules of RFC 5378 and RFC 3979 (updated by RFC 4879).

Statements made outside of an IETF session, mailing list or other function, that are clearly not intended to be input to an IETF activity, group or function, are not IETF Contributions in the context of this notice.

Please consult RFC 5378 and RFC 3979 for details.

A participant in any IETF activity is deemed to accept all IETF rules of process, as documented in Best Current Practices RFCs and IESG Statements.

A participant in any IETF activity acknowledges that written, audio and video records of meetings may be made and may be available to the public.

IPPM Working Group

- Chairs:
  - Henk Uijterwaal <henk@uijterwaal.nl>
  - Matt Zekauskas <matt@internet2.edu>

- Email:
  - ippm@ietf.org
  - ippm-request@ietf.org
  - https://www1.ietf.org/mailman/listinfo/ippm

Agenda (1)

- 5' Administrativia (Minutes, Scribe, Blue Sheet, Note Well, Agenda Bashing...)
- 5' Status of drafts not discussed today

Agenda (2)

- 20' Metrics on the standard track (Al Morton et al)
  - draft-ietf-ippm-metricstest-03
  - draft-morton-ippm-testplan-rfc2679-01
- 15' Long-term Reporting Draft (Al Morton)
  - draft-ietf-ippm-reporting-metrics-05.txt

Agenda (3)

- 30' TWAMP additions.
  - TWAMP Value-Added Octets (Steve Baillargeon)
    - draft-baillargeon-ippm-twamp-value-added-octets-01
  - Alternative proposal (Al Morton)
    - draft-morton-ippm-twamp-rate-00.txt
  - Discussion on how to continue with this effort.
- 15' Change status of RFC5136 to standards track. (Steve Baillargeon)
- 30' Future of the group
- AOB

Status of drafts not discussed today

- Draft-morton-ippm-rfc4148-obsolete-03
  - Published as RFC 6248
- Draft-ietf-ippm-tcp-throughput-tm-13
  - In RFC publication queue

Status of drafts not discussed today

- Draft-ietf-ippm-reporting-06 (short-term)
  - Been through sanity checking passes
  - Waiting for last-call comments to be addressed
- Draft-ietf-ippm-loss-episode
  - No discussion
  - WG LC to start this week

Status of drafts not discussed today

- Round-Trip Loss
  - refreshed
- RFC 5136 update
  - No consensus to update
- "x"WAMP issues raised @ IETF 80
  - No follow-up.

Updated Milestones

- Drafts on a 2011 timeframe
  - Some work to be done
  - Can be done by IETF82
- Officially, we're about done. What's next?
- Group has been around for 10 years
  - Energy levels low, few active people
  - Not sure if/how the chairs can continue
  - Some proposals for new work
  - But no pressing work items left

Options for next steps

1. Make group dormant
   - No meetings
   - Mailing list to discuss bug fixes and such
   - Wake up when there is sufficient interest

2. Shut down group
   - What about bug fixes, maintenance, etc?
   - Unfinished docs to general TSV area

3. Re-charter group
   - Needs: new charter and work-items, new chair, enough critical mass to do work

What's next?

- Think and comment
