

RADEXT WG

draft-aboba-radext-wlan-15

Bernard Aboba

November 14, 2011

IETF 82, Taipei

Please join the Jabber room:
radext@jabber.ietf.org

Purpose of the Document

- Development of additional attributes for RADIUS use on IEEE 802 networks, including:
 - IEEE 802.11
 - IEEE 802.1X-2010

New Attributes Defined

- Allowed-Called-Station-Id
- EAP-Peer-Id
- EAP-Server-Id
- Mobility-Domain-Id
- Preauth-Timeout
- Network-Id-Name
- Access-Info

Document History

- “Call for Adoption” issued on November 13, 2007:
<http://ops.ietf.org/lists/radiusext/2007/msg00906.html>
- Yesterday is the 4 year anniversary!
- Do we think the draft is “ready” for adoption yet?
 - 10 revisions since the original “call for adoption”
- Or does it need “more time to ripen”?
